

Avantis Ultra

96 X 56 MIXER

The Avantis Ultra digital mixer provides 96 mono input processing channels, 12 stereo FX returns, 8 stereo RackUltra FX sends and returns, and 56 flexible mix buses.

With our 96kHz XCVI FPGA engine, Avantis Ultra puts all our next-generation technology in a stand-alone 96 channel / 56 configurable bus console, with dual Full HD touchscreens, a super-flexible workflow with Continuity UI, extensive I/O options, included DEEP processing and RackUltra FX from our flagship dLive mixing systems, and a rugged full-metal chassis.

Fully compatible with all the dLive I/O cards, the full 'Everything I/O' range and IP controllers.
