No. ITL-241218025

The following products have been tested by us with the listed standards and found in compliance with the council EMC directive 2014/30/EU. It is possible to use CE marking to demonstrate the compliance with the EMC directive.

Applicant : **PROLIGHT CONCEPTS (UK) LIMITED**

Address : Edison Point, Regent Street, Colne, Lancashire BB8 8LJ (UK)

Product name : **Meteor 1060 Zoom Batten**

Model No. : **ELUM059**

Technical data : AC 100-240V, 50/60Hz

Test Report No. : 241218025

| Test Standards                |                                                                                                                                                                                                                                                             |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EN IEC 55015:2019+A11:2020    | Limits and methods of measurement of radio disturbance characteristics of electrical lighting and similar equipment                                                                                                                                         |
| EN IEC 61547:2023             | Equipment for general lighting purposes - EMC immunity requirements                                                                                                                                                                                         |
| EN IEC 61000-3-2:2019+A1:2021 | Electromagnetic compatibility (EMC) - Part 3-2: Limits - Limits for harmonic current emissions (equipment input current ≤16 A per phase)                                                                                                                    |
| EN 61000-3-3:2013+A1:2019     | Electromagnetic compatibility (EMC) - Part 3-3: Limits - Limitation of voltage changes, voltage fluctuations and flicker in public low-voltage supply systems, for equipment with rated current ≤16 A per phase and not subject to conditional connection   |
| EN 61000-3-3:2013+A2:2021     | Electromagnetic compatibility (EMC) -- Part 3-3: Limits - Limitation of voltage changes, voltage fluctuations and flicker in public low-voltage supply systems, for equipment with rated current ≤ 16 A per phase and not subject to conditional connection |

The test report was carried out from the submitted type samples of a product in compliance with the specification of the respective standards. The certificate holder has the right to fix the CE-mark for EMC directive on the product complying with the inspection samples
